

OTTOMED ENDOSCOPY SYSTEMS & ANCILLARIES

Better Technology, Better Results.

Branch Offices across INDIA

Equipment Service Centres

At Mitra, simply selling products has never been enough. That's why we've taken the time and effort to ensure our service support is geared to be at the highest level possible. Our number one priority is your satisfaction.

Pan-India Service Assist
Fully equipped Service Centres across the country.

Smart Team
Trained & Experienced Service Engineers

Service Support
Quick & On-time response. Online & On-location.

Training Programs
DNT Programs to keep you updated.

We are there for you..

MITRA INDUSTRIES

About Us

Ottomed is a reputed and established name in the Healthcare Industry in India involved in manufacturing and marketing of healthcare devices with several product patents in our name. We are the only Indian manufacturers of flexible Endoscopes and related Ancillary products.

Our Vision : To enable Lifecare through sustainable Technologies.

Our Mission : To answer customer needs and practice high degree of corporate governance.

Our Culture : Trust, Transparency & Collaboration

We believe that constant innovation is the only way forward. Our state-of-art Research & Development (R&D) department designs and develops next generation products and devices with sustainable technologies based upon customer feedback and needs to enable healthcare professionals provide high quality lifecare.

Our strong focus in R & D has made us the world leaders in FIBRELESS ILLUMINATION LED-AT- TIP technology which puts an end to light-guide glass fibres in video endoscopes. Coupled with a focus on quality and speed to market, our aim to exceed market expectations for performance and value. Our manufacturing processes adhere to the highest global and GMP standards.

Our strong sales & service presence, with offices & service points across the country, offer quality and time bound services to all our customers.

Our high-quality products are available internationally in many countries.

Ottomed Endoscopy is a division of Mitra Medical Services LLP, a part of the Mitra Group.

Endoscope with Improved Internal Light Source Assembly

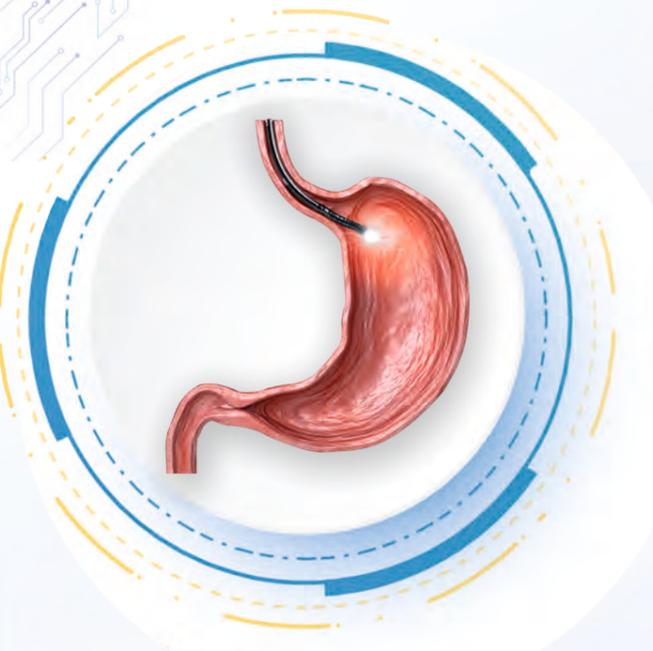

Forward Viewing Flexible Echoendoscope

GO Fiberless!

Introduction to **mBLU** Experience

With Ottomed Advanced Tech Fiberless LED-AT-TIP

Visible sharp detection,
lively and crystal clear image

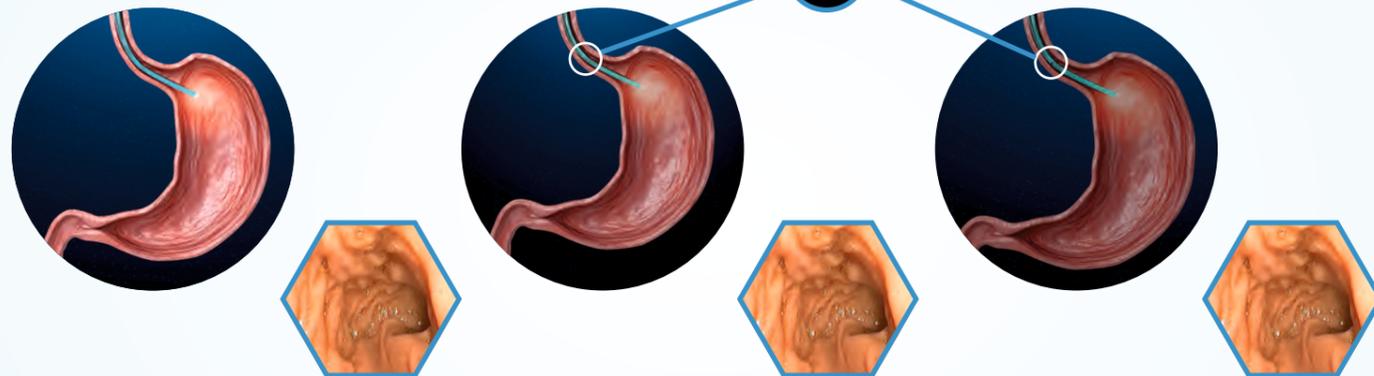

A new 1:1 torque sensitive tactile
insertion tube (T-I-T) design.

Experience Enhanced Image Endoscopy

with **mBLU** imaging technology

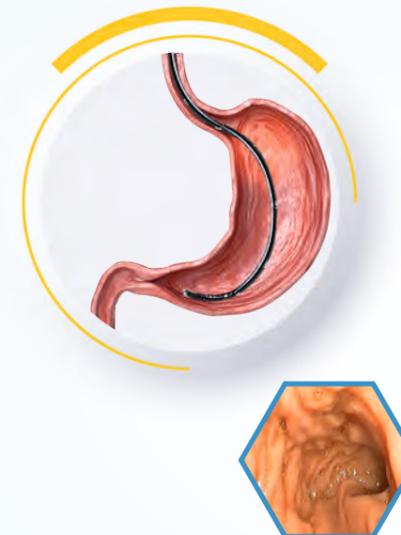

Conventional Technology

Dedicated Glass Light Guide
Illumination bundle will
always get damaged

Dark and Lifeless Image

Poor Detection and Diagnosis

White Light Image

The Next-Generation
Image Technology

mBLU1 Image

Support Study Of Muscosal
Color Characterization

Going Fiberless helps cut repair cost and downtime

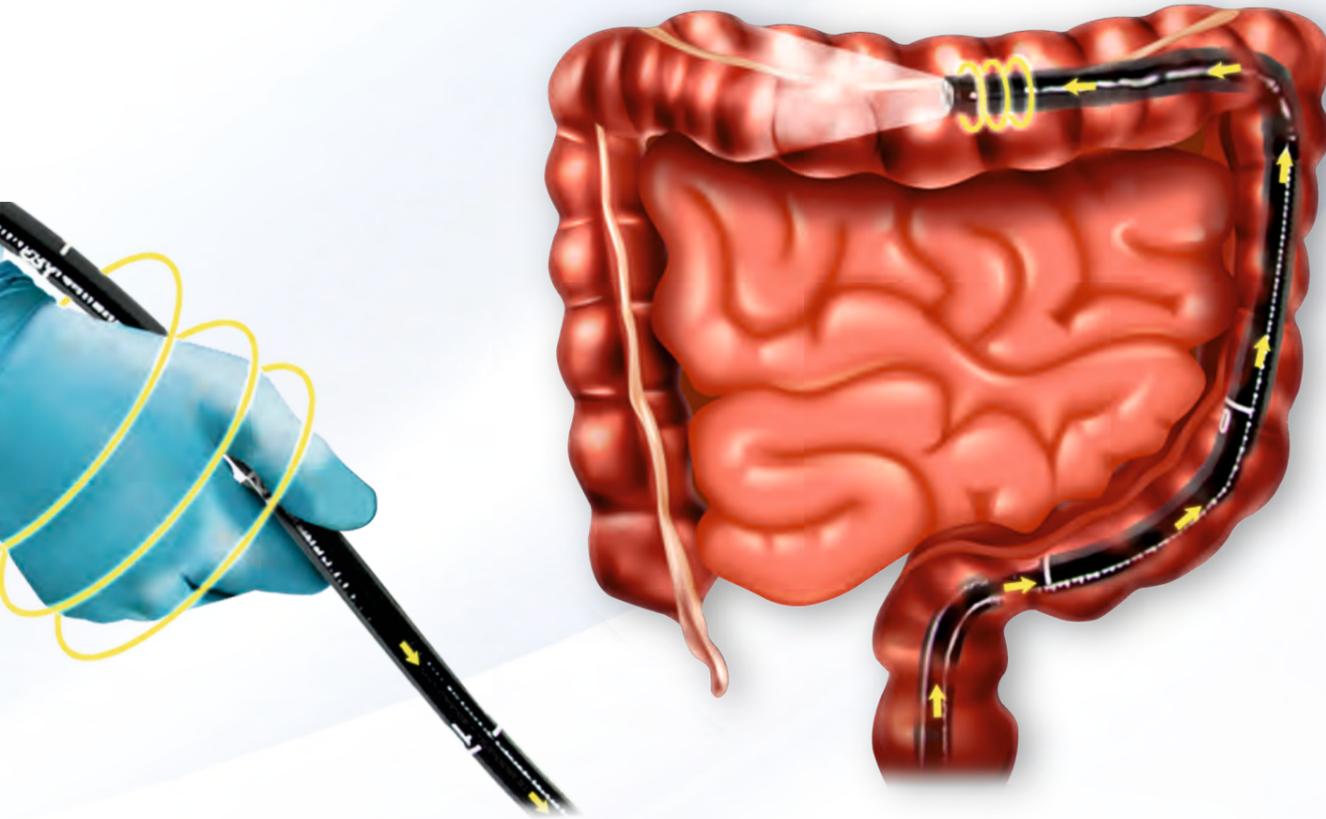

LED vs XENON Light Source		
	LED	XENON
Working Life (approx)	5000 Hours	500 Hours
Energy Consumption	Low	High
Replacement Cost	Low Due to Longer Life	High Due to Shorter Life Span requiring more replacements

Good Design Provides A Great User Experience.

Tactile Insertion Tube (TIT)

Auxilliary Water Jet

A new 1:1 torque sensitive tactile insertion tube (T-I-T) design

The Quick Torque Transmission (QTT) technology in these scopes provide the endoscopists a rapid control tool to carry out minimally invasive, precise and effective procedures and enabling them to make truly-informed diagnostic and treatment decisions in the best interest of their patients.

A dedicated water irrigation channel to precisely wash the colonic mucosa area in the GI tract and gain better visibility for easier diagnosis and detection.

SmartEye-II Plus

Next Generation Digital HD Video Endoscopy System

SmartEye-II Plus is a Next Generation Digital HD Video Endoscopy System offering best-in-class features to Gastroenterologists. The HD platform makes diagnostic and therapeutic endoscopic treatments smooth & hurdle free.

*Compatible with all mB2H and 2H Series Endoscopes

Model: OVP-SEII Plus

Key Features

HD Imaging

mBLU

Extreme Close up Endoscopy (eCUE)

Multiple O/P & I/P Video Signal

PIP/POP

Touch Screen

Compact & Light Weight

Specifications:

MODEL : OVP-SEII Plus

Power Supply	Voltage	100-240 VAC
Size	Voltage fluctuation	Within+10%
	Frequency	50/60 Hz
	Frequency fluctuation	Within+3 Hz
	Consumption electric power	75VA
	Fuse rating	4 A, 250 V
	Fuse size	ø5.0 x 20.0 mm
	Dimensions & Weight	320(W) x 500(L) x 152(H) mm 10.3kg
Classification (medical electrical equipment)	Type of protection against electric shock. Degree of protection against electric stock of applied part. Degree of protection against explosion.	Class 1
Observation	Video signal output	VBS composite (PAL), Y/C, HDMI, HD-SDI, DVI-D Simultaneous output is possible.
	Video signal input	VBS composite (PAL), HDMI
	White balance	By pressing the white balance switch on the front panel, automatic white balance can be performed.
	Color tone adjustment	The following color tone adjustments may be using the color tone adjustment on the "System Setup" menu * "R" control:±10 steps * "B" control:±10 steps.
	Iris area selection	The area over which light is measured can be changed according the body part that is being observed. The following to choices can be made using the iris mode selector on the front panel. Average: Normal observation Peak : When focusing on and/or observing a small bright area
	Image Enhancement mode setting	Structure enhancement in the endoscopic images can be enhanced electrically to increase the image sharpness.
	Gamma Correction	Gamma correction adjustments can be performed by adjusting the gamma value.
	Switching the enhancement modes	The enhancement level can be selected from 3 levels enhancement modes (Low, Med. and High) using the image enhancement mode on the front button panel.
	Freeze screen display	The endoscopic image can be displayed as a frozen image, using the freeze switch key from endoscope.
	Brightness Selector	The brightness can be adjusted using the brightness adjustment on the "system setup/camera adjustment" menu.
	Remote control	The following function can be controlled by the endoscope's remote switches (Freeze, Record, Light, White Balance, mBLU, Enhancement, Contrast, Focus, Iris, Image Size, Remove Data & EXT In)
	mBLU	This mode is used to switch the normal mode to mBLU mode with white or blue light or vice versa.
	External Storage	USB Memory Stick
	Documentation	Patient Data
Display the record state		Date/time (built in clock)
Pre-procedural patient data		For a maximum of 40 patients- ID number, patient Name, Sex, Age, & Date of Birth
Image Storage & Retrieval	Memorization of selected setting	The following setting on the front panel are stored even when the video processor is turned OFF- System Setup, Setting the image record, Patient Data, Colour Tone, & White Balance.
Memory Backup	Lithium Battery	Life : 5 years
Illumination	LED (White)	At Endoscope Tip
	Pump	Diaphragm type pump
Air Feeding Method	Airflow	"Low", "High", "Stop"
	Airflow Pressurization of water container (detachable)	Air pressurization of water container (detachable)

HD VIDEO GASTROSCOPE

mBLU HD Video Endoscope

Blue Light Imaging

Model: OVG-mB2H
(Compatible Video Processor: OVP-SEII Plus)

Key Features

Fiberless LED-At-Tip

HD Imaging

Auxiliary Water Jet Channel

Single Step, Waterproof Connector

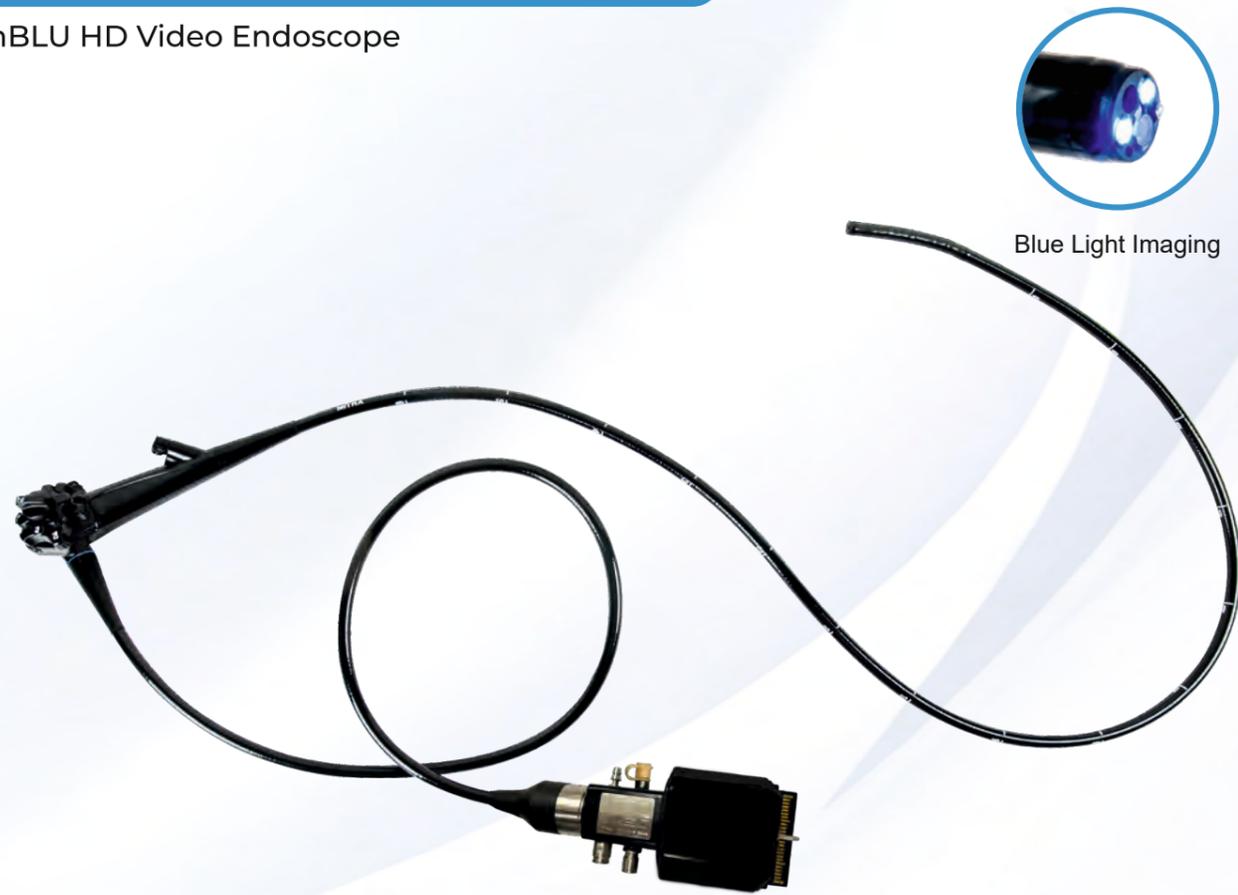

Specifications:

MODEL : OVG-mB2H		
Optical System	Field Of View	140°
	Direction Of View	Forward Viewing
	Depth Of Field	3-100 mm
	Optical Technology - mBLU	mBLU Mode 1 & mBLU Mode 2
Insertion Tube	Distal End Outer Diameter	9.8 mm
	Insertion Tube Outer Diameter	9.5 mm
	Distal End Enlarged	1. Air/Water Nozzle
		2. Illumination LEDs (W/B)
	3. Objective Lens	
	4. Instrument Channel Outlet	
	5. Auxiliary Water Channel	
Instrument Channel	Working Length	1055 mm
	Channel Inner Diameter	2.8 mm
	Minimum Visible Distance	3 mm from the distal end
	Direction from which endo-therapy accessories enter and exit the endoscopic image.	
Air Flow Rate		30 cm 3/s
Bending Section	Angulation Range	UP 210°
		DOWN 90°
		RIGHT 100°
		LEFT 100°
Total Length		1365 mm
Compatible Video Processor		OVP-SEII Plus

HD VIDEO COLONOSCOPE

mBLU HD Video Endoscope

Blue Light Imaging

Model: OVC-mB2H (L/I/S)
(Compatible Video Processor: OVP-SEII Plus)

Fiberless LED-At-Tip

HD Imaging

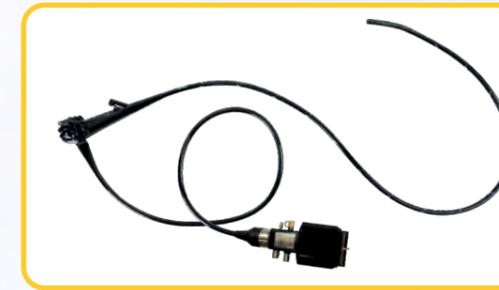

Tactile Insertion Tube

Auxiliary Water Jet Channel

Single Step, Waterproof Connector

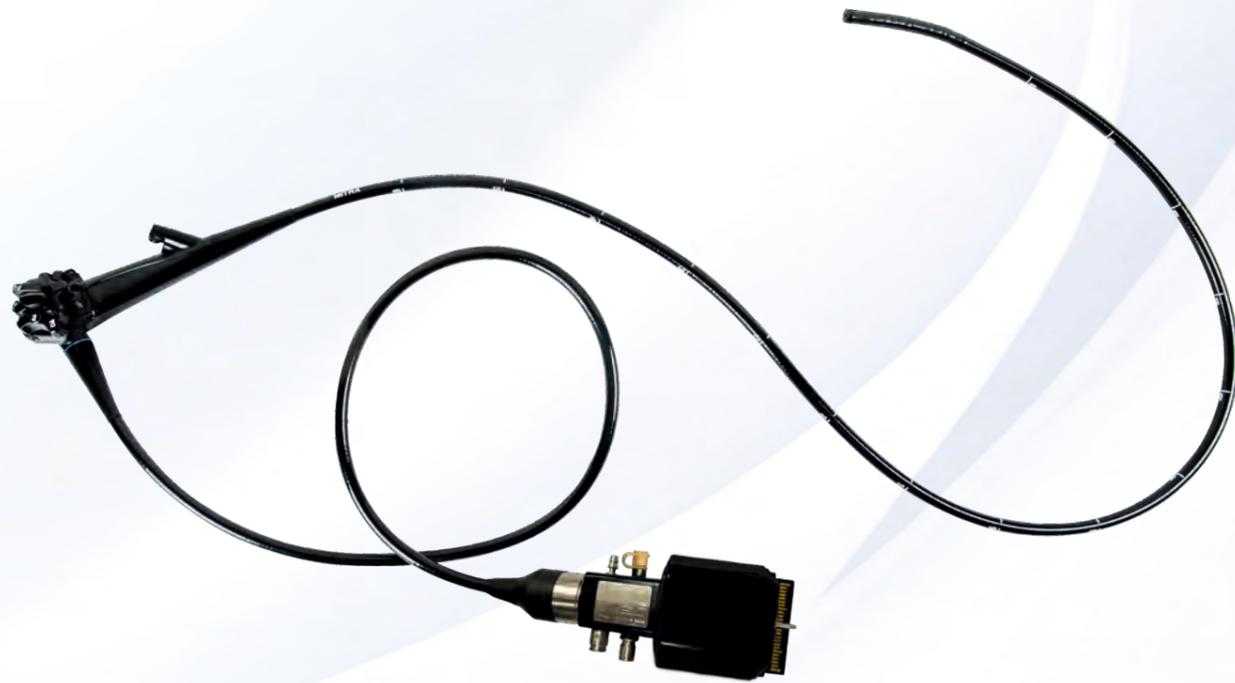

Specifications:

MODEL : OVC-mB2H (L/I/S)

Optical System	Field Of View	140°
	Direction Of View	Forward Viewing
	Depth Of Field	3-100 mm
	Optical Technology - mBLU	mBLU Mode 1 & mBLU Mode 2
Insertion Tube	Distal End Outer Diameter	13 mm
	Insertion Tube Outer Diameter	12.8 mm
	Distal End Enlarged	1. Air/Water Nozzle
		2. Illumination LEDs (W/B)
3. Objective Lens		
	4. Instrument Channel Outlet	
	5. Auxiliary Water Channel	
Working Length	L: 1680 mm	
	I: 1330 mm	
	S: 730 mm	
Instrument Channel	Channel Inner Diameter	3.7 mm
	Minimum Visible Distance	3 mm from the distal end
	Direction from which endo-therapy accessories enter and exit the endoscopic image.	
Air Flow Rate		25 cm ³ /s
Bending Section	Angulation Range	UP 180°
		DOWN 180°
		RIGHT 160°
		LEFT 160°
Total Length	L: 1680 mm	
	I: 1330 mm	
	S: 730 mm	
Compatible Video Processor		OVP-SEII Plus

PAEDIATRIC HD VIDEO COLONOSCOPE

mBLU HD Video Endoscope

Model: OVC-PmB2H (L/I)
(Compatible Video Processor: OVP-SEII Plus)

Key Features

Fiberless LED-At-Tip

HD Imaging

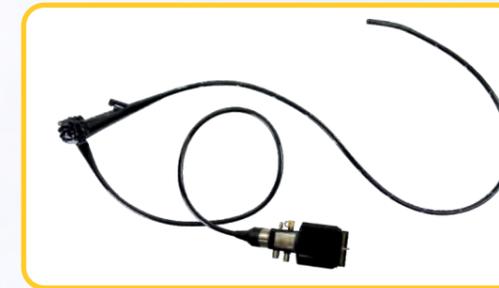

Tactile Insertion Tube

Auxiliary Water Jet Channel

Single Step, Waterproof Connector

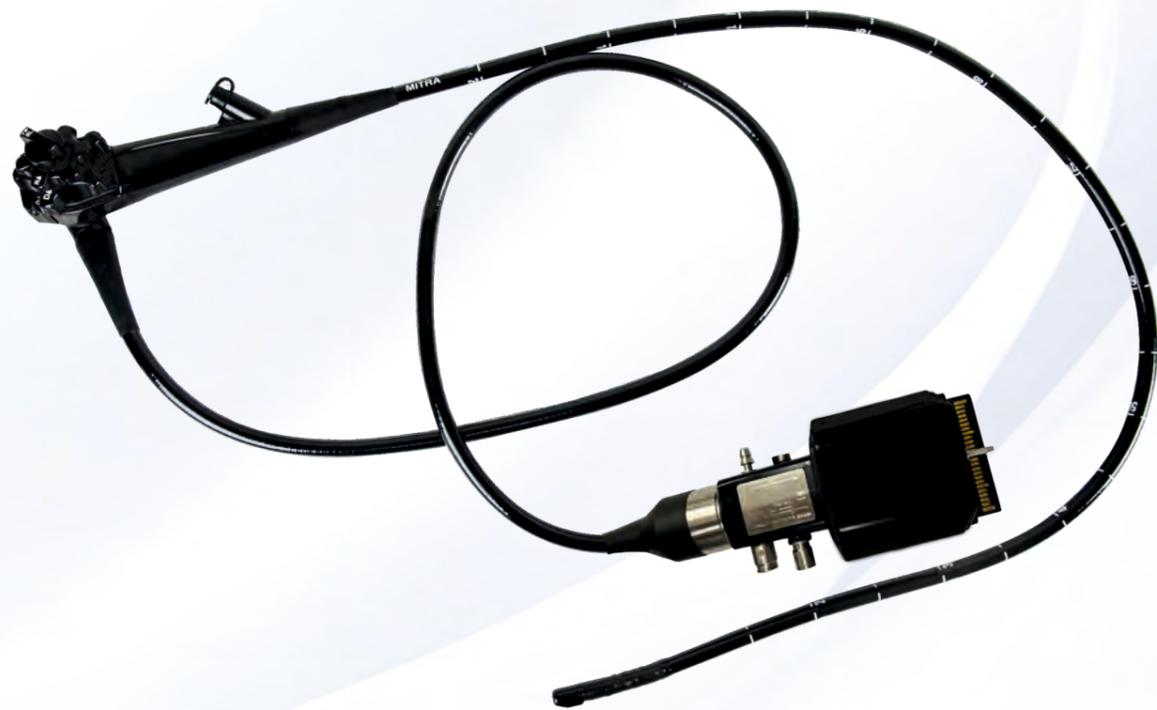

Specifications:

MODEL : OVC-PmB2H (L/I)		
Optical System	Field Of View	140°
	Direction Of View	Forward Viewing
	Depth Of Field	3-100 mm
	Optical Technology - mBLU	mBLU Mode 1 & mBLU Mode 2
Insertion Tube	Distal End Outer Diameter	11.8 mm
	Insertion Tube Outer Diameter	11.8 mm
	Distal End Enlarged	1. Air/Water Nozzle
		2. Illumination LEDs (W/B)
		3. Objective Lens
4. Instrument Channel Outlet		
5. Auxiliary Water Channel		
Working Length	L: 1680 mm	
	I: 1330 mm	
Instrument Channel	Channel Inner Diameter	3.2 mm
	Minimum Visible Distance	3 mm from the distal end
	Direction from which endo-therapy accessories enter and exit the endoscopic image.	
Air Flow Rate		25 cm ³ /s
Bending Section	Angulation Range	UP 180°
		DOWN 180°

SmartEye- S3

Model: OVP-S3

Multi-featured Video Endoscopy System

Key Features

Fiberless LED-At-Tip

8 IN 1 Scope Connectivity

Video Recording

Image Capturing

Multiple Video Signals

Scope Identification

Single Step, Waterproof Connector

Compact & Light Weight

*Compatible with all S2+ Series Endoscopes

Specifications:

MODEL : OVP-S3		
Power Supply	Voltage	100-240 VAC
	Voltage fluctuation	Within ±10%
	Frequency	50/60 Hz
	Frequency fluctuation	Within ±3 Hz
	Consumption electric power	40 VA
	Fuse rating	4 A, 250 V
	Fuse size	ø5.0 x 20.0 mm
Size	Dimensions	445 (W) x 320 (L) x 152 (H) mm
	Weight	8.9 kg
Classification (medical electrical equipment)	Type of protection against electric shock.	Class 1
	Degree of protection against electric shock of applied part.	Depends on the applied part. (The degree of protection against electric shock of this product is BF type if the mounting part be connected to this product is BF type. Note that CF type is not compatible with this product).
Observation	Degree of protection against explosion.	The Video Processor should be kept away from flammable gases.
	Analog SD TV signal output	Y/C x 1, VBS x 1 simultaneous output is possible.
	Digital signal output	HDMI x 2 , DVI-D x 2 simultaneous output is possible.
	White balance	By pressing the white balance switch on the front panel, automatic white balance can be performed.
	Color tone adjustment	The following color tone adjustments may be using the color tone adjustment on the "System Setup" menu.* "R" control: ±5 steps, * "G" control: ±5 steps,* "B" control: ±5 steps, * Chroma : ±5 steps.
	Image settings	Contrast: ±5 steps, Brightness: ±5 steps, Gamma: ±5 steps.
	Image size option	Small, Medium, Default & Large
	Light target	ALC: ±5 steps
	Iris area selection	The area over which light is measured can be changed according to the body part that is being observed. The following two choices can be made using the iris mode selector on keyboard and endoscope remote switch. Average: Normal observation.Peak: When focusing on and/or observing a small bright area.
	Image enhancement mode setting	Fine patterns or edges in the endoscopic images can be enhanced electrically to increase the image sharpness.
	Gamma correction	Gamma correction adjustments can be performed by adjusting the gamma value.
	Switching the enhancement modes	The enhancement level can be selected from 3 Level enhancement mode (Low, Med and High) using the image enhancement mode on the front button panel.
	Brightness selector	The brightness can be adjusted using the brightness adjustment on the "System & Image setting menu.
Contrast selector	The contrast can be adjusted using the contrast adjustment on the "System Image setting" menu.	
Zoom	1.3x	
Remote control	The following functions can be controlled by the endoscopes' remote switches (Light, White Balance, Freeze, Zoom, Record Video, Iris, Record Image, Enhancement, Image Size, mBLU, Remove Data, No Option)	
*mBLU (Optional feature)	This mode is used to switch the normal mode to mBLU mode - 1 & mBLU mode - 2	
Freeze screen display	The endoscopic image can be displayed as a frozen image, using the freeze switch key from endoscope.	
Pre-Freeze	While capturing a image, the function analyzes previous images & display the sharpest image from the view.	
Portable Memory	Media	USB mass storage
	Image recording	PNG Format
Documentation	Movie recording	AVI
	Patient data	The following data and modes can be displayed on the video monitor using the keyboard - ID number, Doctor Name, Patient Name, Sex, Age, Date of Birth & Comments.
USB Ports	Display the record state	Date/time (built-in clock)
	Memory backup	The following scope information can be displayed on the monitor - Scope Model No., Serial No., Insertion Tube Diameter, Channel Diameter, Distal End Diameter & User details
Illumination	Keyboard & External Storage	Keyboard & External Storage
	Lithium battery	User settings up to 5nos. users
Water feeding	Fibreless LED (White)	Settings are held in video processor memory, even after video system is turned off.
	Pump	Life: 5 years
	Airflow	At the endoscope's Tip
		Diaphragm type pump
		3-mode (OFF, Low, High)
		Air pressurization of water container (detachable)

VIDEO GASTROSCOPE

S2+ Series

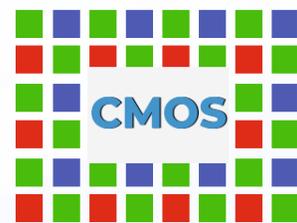

Model: OVG-S2+
(Compatible Video Processor: OVP-S3)

Key Features

Fiberless LED-At-Tip

CMOS Sensor

Remote Button

Single Step, Waterproof Connector

Specifications:

MODEL : OVG-S2+

Optical System	Field Of View	120°
	Direction Of View	Forward Viewing
	Depth Of Field	3-100 mm
Insertion Tube	Distal End Outer Diameter	9.8 mm
	Insertion Tube Outer Diameter	9.5 mm
	Distal End Enlarged	1. Air/Water Nozzle
		2. Illumination LEDs (W)
	3. Objective Lens	
	4. Instrument Channel Outlet	
Instrument Channel	Working Length	1055 mm
	Channel Inner Diameter	2.8 mm
	Minimum Visible Distance	3 mm from the Distal End
	Direction from which endo-therapy accessories enter and exit the endoscopic image.	
Air Flow Rate		30 cm ³ /s
Bending Section	Angulation Range	UP 210°
		DOWN 90°
		RIGHT 100°
		LEFT 100°
Total Length		1365 mm
Compatible Video Processor		OVP-S3

ULTRA SLIM VIDEO GASTROSCOPE

S2+ Series

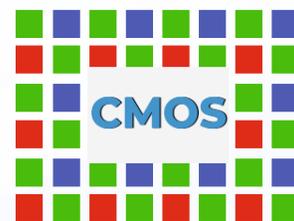

Model: OVG-S2+US
(Compatible Video Processor: OVP-S3)

Key Features

Fiberless LED-At-Tip

CMOS Sensor

Remote Button

Single Step, Waterproof Connector

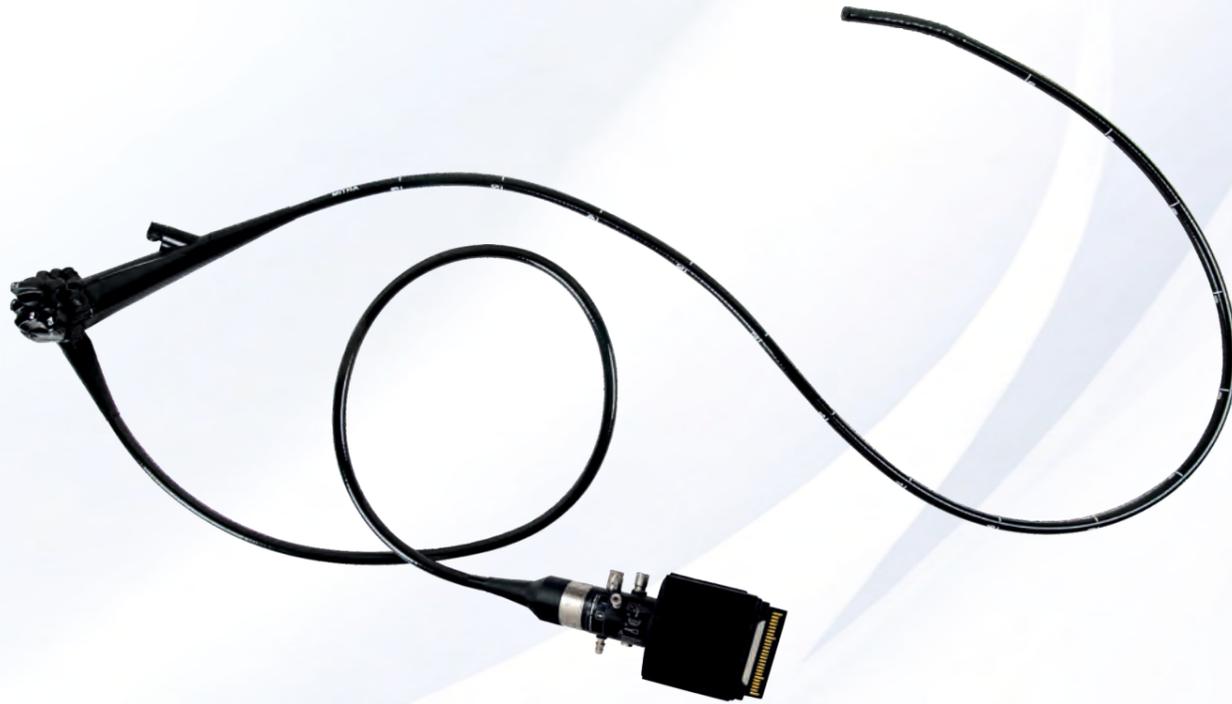

Specifications:

MODEL : OVG-S2+US

Optical System	Field Of View	120°
	Direction Of View	Forward Viewing
	Depth Of Field	3-100 mm
Insertion Tube	Distal End Outer Diameter	7.8 mm
	Insertion Tube Outer Diameter	7.8 mm
	Distal End Enlarged	
Instrument Channel	Working Length	1055 mm
	Channel Inner Diameter	2.2 mm
	Minimum Visible Distance	3.5 mm from the Distal End
	Direction from which endo-therapy accessories enter and exit the endoscopic image.	
Bending Section	Angulation Range	UP 210°
		DOWN 90°

Next Generation Digital Video Endoscopy Processor

COMPATIBLE WITH

- Bronchoscope • Pleurascope • Laryngoscope • Ureterscope • Cystoscope • Cholangioscope

Key Features

*Compatible with all IN+ Series Endoscopes

MODEL : OVP-IN2		
Power Supply	Voltage	100-240 VAC
	Voltage fluctuation	Within ±10%
	Frequency	50/60 Hz
	Frequency fluctuation	Within ±3 Hz
	Consumption electric power	18 VA
	Fuse rating	3 A, 250 V
	Fuse size	ø5.0 x 20.0 mm
Size	Dimensions	300 (W) x 295 (L) x 80 (H) mm
	Weight	5 kg
	Type of protection against electric shock.	Class 1
Classification (medical electrical equipment)	Degree of protection against electric shock of applied part.	Type BF applied part. Where no classification mark appears, the device is a type BF applied part.
	Degree of protection against explosion.	The Video Processor should be kept away from flammable gases.
Observation	Analog SD TV signal output	Y/C x 1, VBS x 1 simultaneous output is possible.
	Digital signal output	HDMI x 2 , DVI-D x 2 simultaneous output is possible.
	White balance	By pressing the white balance switch on the front panel, automatic white balance can be performed.
	Color tone adjustment	The following color tone adjustments may be using the color tone adjustment on the "System Setup" menu.* "R" control: ±5 steps, * "G" control: ±5 steps,* "B" control: ±5 steps, * Chroma : ±5 steps.
	Image settings	Contrast: ±5 steps, Brightness: ±5 steps, Gamma: ±5 steps.
	Image size option	Small, Medium, Default & Large
	Light target	ALC: ±5 steps
	Iris area selection	The area over which light is measured can be changed according to the body part that is being observed. The following two choices can be made using the iris mode selector on keyboard and endoscope remote switch. Average: Normal observation.Peak: When focusing on and/or observing a small bright area.
	Image enhancement mode setting	Fine patterns or edges in the endoscopic images can be enhanced electrically to increase the image sharpness.
	Gamma correction	Gamma correction adjustments can be performed by adjusting the gamma value.
	Switching the enhancement modes	The enhancement level can be selected from 3 Level enhancement mode (Low, Med and High) using the image enhancement mode on the front button panel.
	Brightness selector	The brightness can be adjusted using the brightness adjustment on the "System & Image setting menu.
	Contrast selector	The contrast can be adjusted using the contrast adjustment on the "System Image setting" menu.
	Zoom	1.3x
	Remote control	Multiple programmable functions can be controlled by the endoscope's 2Nos.remote switches
*mBLU (Optional feature)	This mode is used to switch the normal mode to mBLU mode - 1 & mBLU mode - 2	
Freeze screen display	The endoscopic image can be displayed as a frozen image, using the freeze switch key from endoscope.	
Pre-Freeze	While capturing a image, the function analyzes previous images & display the sharpest image from the view.	
Portable Memory	Media	USB mass storage
Documentation	Patient data	The following data and modes can be displayed on the video monitor using the keyboard * ID number * Doctor Name * Patient Name * Sex, Age * Date of Birth * Comments.

	Distal End Enlarged	
Instrument Channel	Working Length	I-1400 mm/ S- 1055 mm
	Channel Inner Diameter	2.8 mm
	Minimum Visible Distance	3 mm from the Distal End
	Direction from which endo-therapy accessories enter and exit the endoscopic image.	
Bending Section	Angulation Range	UP 180°
		DOWN 120°
		RIGHT 120°
		LEFT 120°
Total Length		I-1710 mm/ S-1355mm
Compatible Video Processor		OVP-S3

SmartEye-II

Model: OVP-SEII

High Definition Video Endoscopy System

SmartEye-II is a High Definition Digital Video Endoscopy System offering classic features supporting the user for precision diagnosis & detection.

Key Features

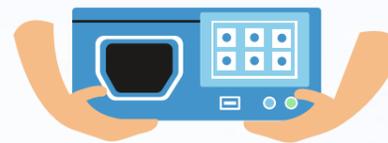

HD Imaging

PIP/POP

Simultaneous Video Output

Compact & Light Weight

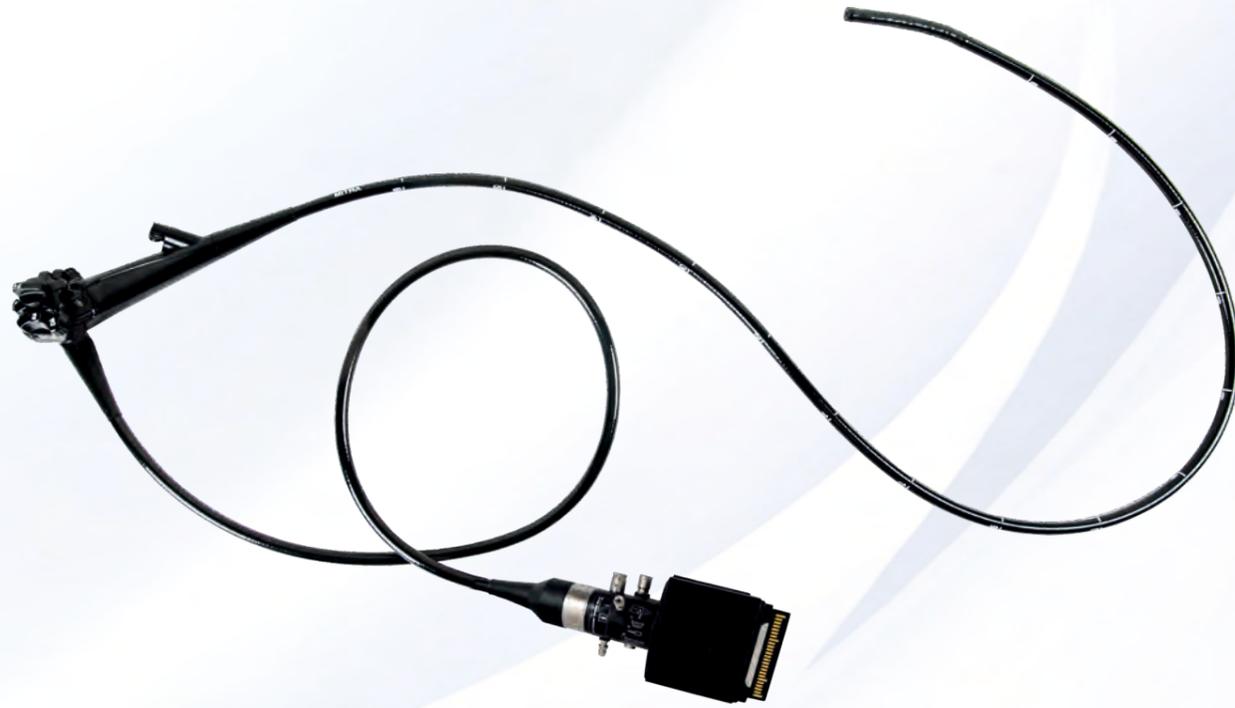

*Compatible with all 2H Series Endoscopes

Specifications:

MODEL : OVP-SEII

Power Supply	Voltage	100-240 VAC
Size	Voltage fluctuation	Within+10%
	Frequency	50/60 Hz
	Frequency fluctuation	Within+3 Hz
	Consumption electric power	72VA
	Fuse rating	4 A, 250 V
	Fuse size	ø5.0 x 20.0 mm
	Dimensions & Weight	320(W) x 500(L) x 152(H) mm 10.3kg
Classification (medical electrical equipment)	Type of protection against electric shock.	Class 1
	Degree of protection against electric shock of applied part.	Type BF applied part. Where no classification mark appears, the device is a TYPE BF applied part.
	Degree of protection against explosion.	The Video Processor should be kept away from flammable gases.
Observation	Video signal output	VBS composite (PAL), Y/C, HDMI, HD-SDI, DVI-D Simultaneous output is possible.
	Video signal input	VBS composite (PAL), HDMI
	White balance	By pressing the white balance switch on the front panel, automatic white balance can be performed.
	Color tone adjustment	The following color tone adjustments may be using the color tone adjustment on the "System Setup" menu * "R" control:±10 steps * "B" control:±10 steps.
	Iris area selection	The area over which light is measured can be changed according to the body part that is being observed. The following to choices can be made using the iris mode selector on the front panel. Average: Normal observation Peak : When focusing on and/or observing a small bright area
	Image Enhancement mode setting	Structure enhancement in the endoscopic images can be enhanced electrically to increase the image sharpness.
	Gamma Correction	Gamma correction adjustments can be performed by adjusting the gamma value.
	Switching the enhancement modes	The enhancement level can be selected from 3 levels enhancement modes (Low, Med. and High) using the image enhancement mode on the front button panel.
	Freeze screen display	The endoscopic image can be displayed as a frozen image, using the freeze switch key from endoscope.
	Brightness Selector	The brightness can be adjusted using the brightness adjustment on the "system setup/camera adjustment" menu.
	Remote control	The following function can be controlled by the endoscope's remote switches (Freeze, Record, Light, White Balance, mBLU, Enhancement, Contrast, Focus, Iris, Image Size, Remove Data & EXT In)
	mBLU	This mode is used to switch the normal mode to mBLU mode with white or blue light or vice versa.
	External Storage	USB Memory Stick
	Documentation	Patient Data
Display the record state		Date/time (built in clock)
Pre-procedural patient data		For a maximum of 40 patients- ID number, patient Name, Sex, Age, Date of Birth
Image Storage & Retrieval	Memorization of selected setting	The following setting on the front panel are stored even when the video processor is turned OFF- System Setup, Setting the image record, Patient Data, Colour Tone, White Balance.
Memory Backup	Lithium Battery	Life : 5 years
Illumination	LED (White)	At Endoscope Tip
Air Feeding Method	Pump	Diaphragm type pump
	Airflow	"Low", "High", "Stop"
	Airflow Pressurization of water container (detachable)	Air pressurization of water container (detachable)

VIDEO VETERINARY ENDOSCOPE

Model: OVV-2H+ (L/I/S)
(Compatible Video Processor: OVP-SEII)

Key Features

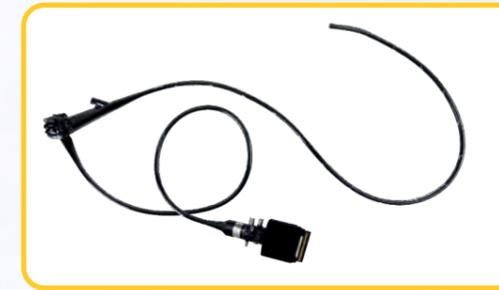

Fiberless LED-At-Tip

HD Imaging

Single Step, Waterproof Connector

Specifications:

MODEL : OVV-2H+(L/I/S)		
Optical System	Field Of View	140°
	Direction Of View	Forward Viewing
	Depth Of Field	3-100 mm
Insertion Tube	Distal End Outer Diameter	9.8 mm
	Insertion Tube Outer Diameter	9.8 mm
	Distal End Enlarged	
Instrument Channel	Working Length	L-3000 mm/ I-1400 mm / S- 1055 mm
	Channel Inner Diameter	2.8 mm
	Minimum Visible Distance	3 mm from the Distal End
	Direction from which endo-therapy accessories enter and exit the endoscopic image.	
Bending Section	Angulation Range	UP 180°
		DOWN 140°
		RIGHT 120°
		LEFT 120°
Total Length		L-3310 mm/ I-1710 mm / S- 1355 mm
Compatible Video Processor		OVP-S3

Full HD Laparoscopy Camera System

Endoplus HD

Full HD Laproscopic Camera System

Clear, Crisp & Brighter Imaging

Model: OVP-EP

HD Imaging

CMOS Sensor

Optical Zoom

Remote Switch

Single Step, Water Proof Connector

Compact & Light Weight

Model: OLS

Ottomed LED Light Source

High end Light Source providing natural colors of video of an endoscopy camera.

A long life LED lamp

Features

- Long life LED with (5000 Hrs)
- Brightness control level 50% to 100%.
- Variable temperature settings for heating protection or undesired heat generation
- Flicker free steady LED light source.

Specification

- **Ambient Temperature** - 10°C - 40°C
- **Relative Humidity** - 30% - 85%
- **Input Voltage** - 100v - 240v

Endoscopy Ancillaries

Intelligent
CO₂ Gas Flow
Technology

Easy to Use... →

Key Features

- Actual Gas Input Pressure Indicator
- Light Weight
- Compact Size
- Universal compatibility
- Single touch flow selection
- Eco-friendly

Specifications:

MODEL - m.EC-IIIi							
Operating Environment							
Ambient Temperature	10°C – 40°C						
Relative Humidity	30% to 85%						
Main Unit Specifications							
Pneumatics							
Gas	CO ₂ (Medical Grade)						
Input Pressure	1 bar - 7 bar						
Flow Rate	<table border="1"> <tr> <td>POEM</td> <td>1.0 L/min ±10%</td> </tr> <tr> <td>LOW</td> <td>3 L/min ±10%</td> </tr> <tr> <td>HIGH</td> <td>4.5 L/min ±10%</td> </tr> </table>	POEM	1.0 L/min ±10%	LOW	3 L/min ±10%	HIGH	4.5 L/min ±10%
POEM	1.0 L/min ±10%						
LOW	3 L/min ±10%						
HIGH	4.5 L/min ±10%						
Intelligent Flow Control	Applicable						
Power Supply							
Input Voltage	100V - 240V						
Allowable Voltage Fluctuation	±10%						
Power Rating	24VA						
Frequency	50Hz / 60Hz						
Allowable Frequency Fluctuation	±3 Hz						
Dimensions							
Length	220mm						
Width	170mm						
Height	145mm						
Weight	Approx. 2.3 Kg						

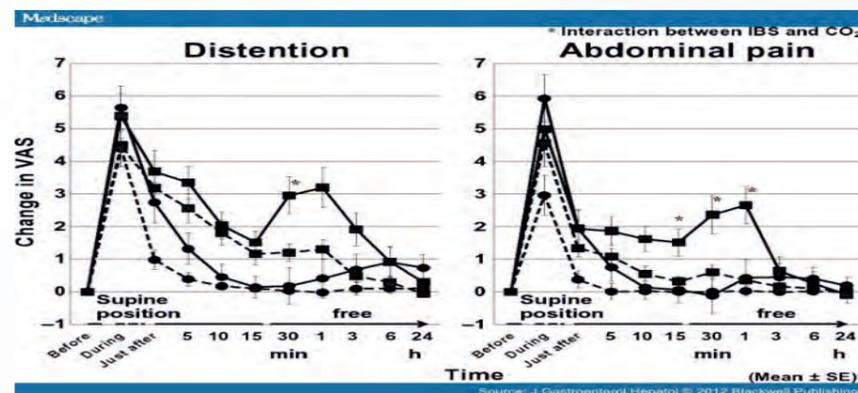

Endocarbon-IIIi

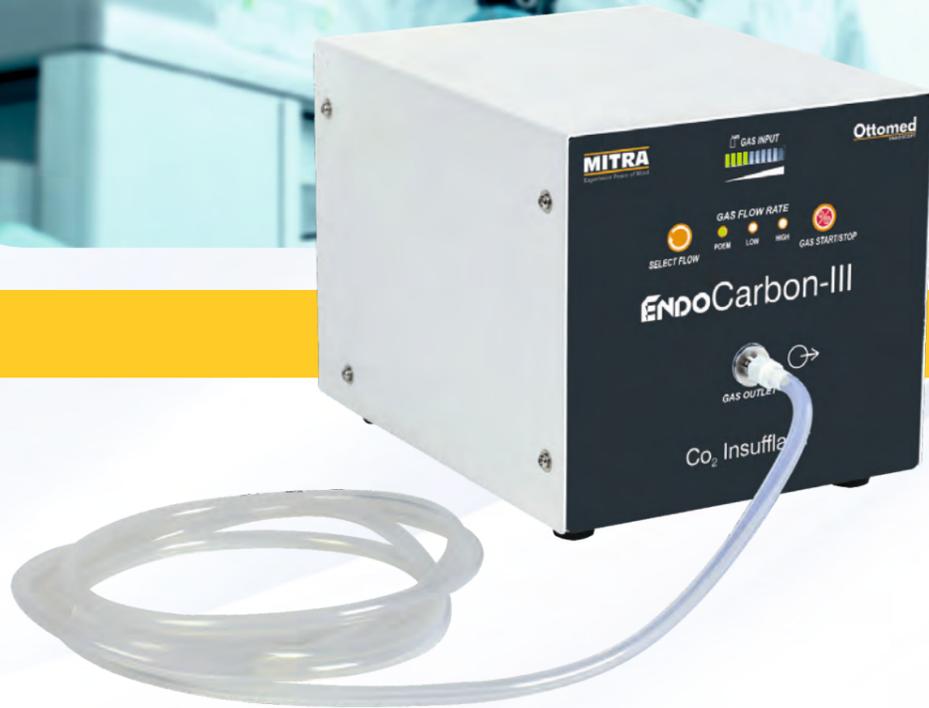

Endoscopy CO₂ Insufflator

The Intelligent, Efficient & Compact machine for Patient comfort.

Highly efficient Intelligent gas flow.
Advance micro-controller technology.

Special customized & pre-programmed single touch mode for POEM procedure.

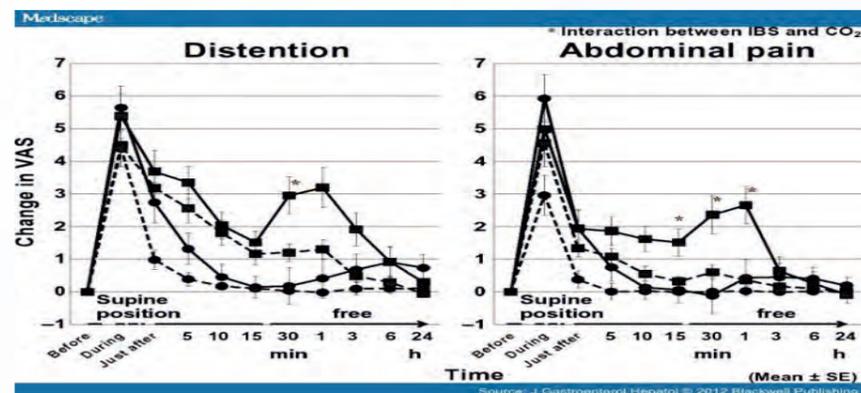

Endocarbon-III

Endoscopy CO₂ Insufflator

Efficient & Compact machine for Patient comfort.

Advance micro-controller technology.
Special customized & pre-programmed single touch mode for POEM procedure.

Easy to Use... →

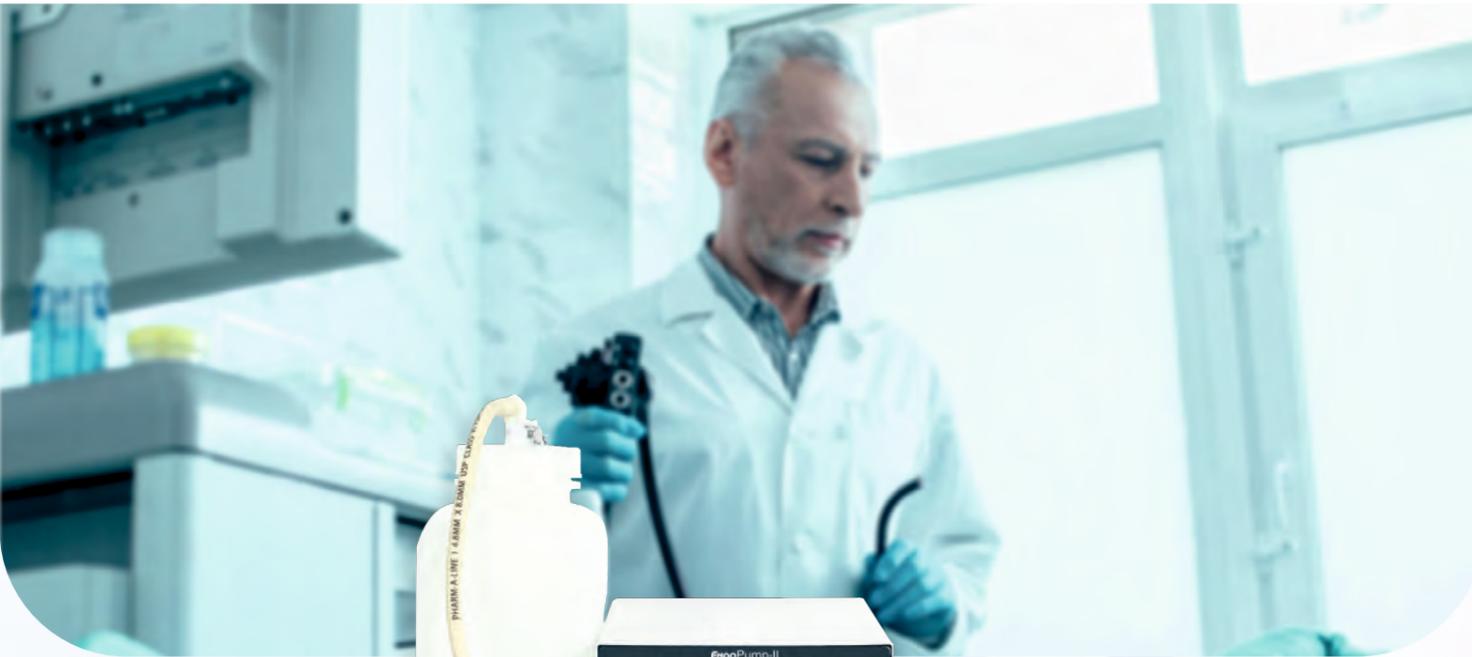

Key Features

Key Features

- Reverse flow technology for precision flow control.
- Universal Compatibility.
- In-built safety alarm.
- Led Indication.
- Noise less operation.
- Easy selection of water flow rate.
- Foot switch control.

Specifications:

MODEL - m.EP-II	
Operating Environment	
Ambient Temperature	10°C – 40°C
Relative Humidity	30% to 85%
Main Unit Specifications	
Power Supply	
Input Voltage	100V - 240V
Allowable Voltage Fluctuation	±10%
Current	0.4A – 0.2A
Frequency	50Hz / 60Hz
Water Flow Range	100ml/min – 900ml/min
Foot Switch Type	Pedal Type
Flow Indicator	LED
Dimensions	
Length	255 mm
Width	265 mm
Height	150 mm
Weight	Approx. 2.7 Kg Without Water Tank

Endopump-II

Peristaltic Water Irrigation Pump

RECOMMENDED APPLICATIONS

- Auxiliary water jet irrigation for washing colonic mucosa.
- Auxiliary water jet/Biopsy channel irrigation for gastric washing, bleed etc.
- Quick filling for Endoscopic Ultrasound procedure.

Qubey-III

Fully Automatic Twin Scope Endowasher System with Alcohol flushing feature.

Minimize your Hygiene & Safety concerns. Disinfect your scope in the **Qubey-III Endowasher** after every procedure to maximize safety of the Patient, Staff and yourself.

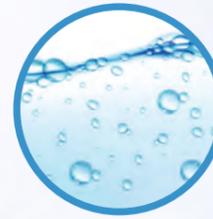

360° Turbo Jet

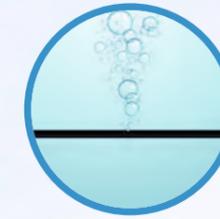

Alcohol Flush

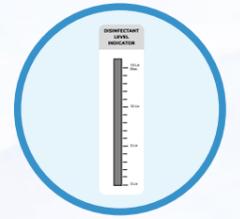

Key Features

Detergent wash to remove sticky residue on Endoscopes

Dual Leakage Testing Port

Always visible disinfection, alcohol, detergent solution level for easy top up!

Qubey-III

EndoHanger 2

For Endoscope Storage

Improper storage is the most common reason for endoscope damage. EndoHanger 2 is a safe & secure endoscope storage tool to safely and securely store your endoscopes. Proper storage of endoscopes also plays an important part in endoscope reprocessing to ensure Patient and Technician safety.

Key Features

- **Wall mounted Endoscope Hanger:** Endohanger 2 is designed to be easily mounted on the wall or in the endoscope cabinet.
- **Safer & Secure storage:** Endohanger 2 helps save on costly repair costs and downtime by allowing proper storage of your expensive endoscopes.
- **Material:** Made from long-lasting durable single piece Acrylic which is easy to clean and wipe.
- Universal Compatibility.
- Can be costumed designed for EUS Endoscopes.

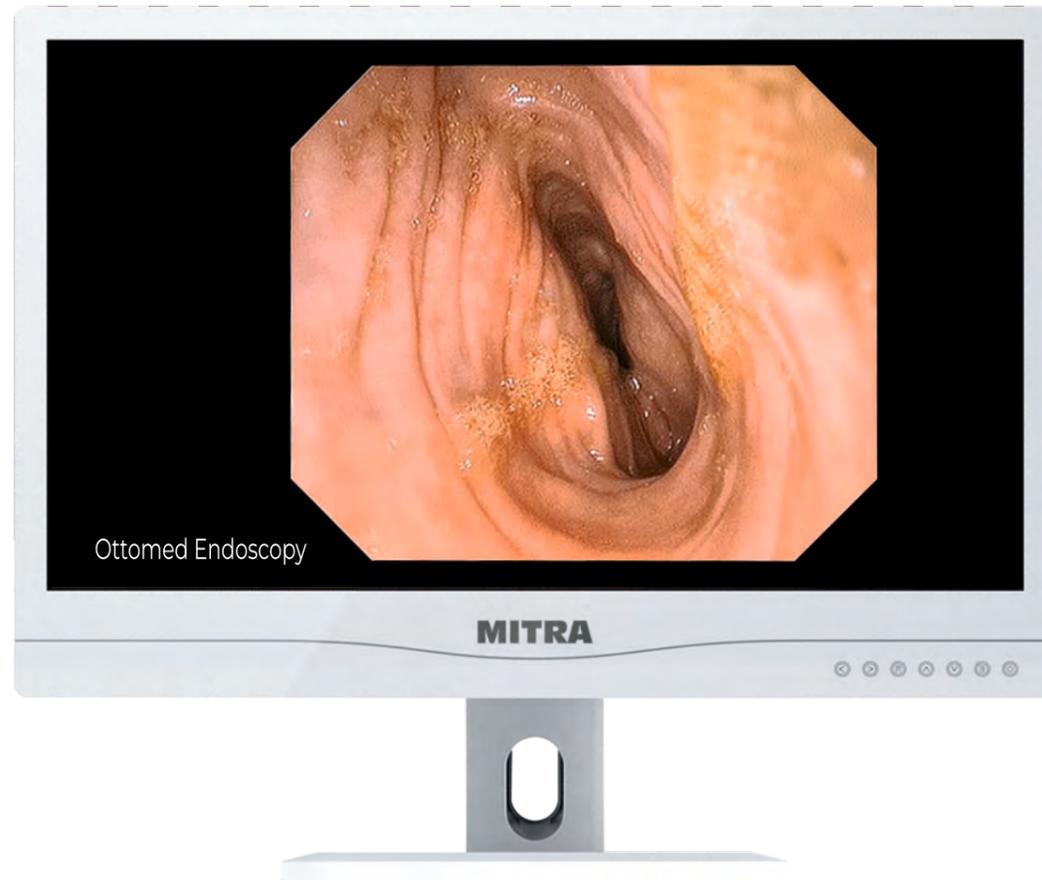

EndoHanger

For Endoscope Storage

Improper storage is the most common reason for endoscope damage. EndoHanger 2 is a safe & secure endoscope storage tool to safely and securely store your endoscopes. Proper storage of endoscopes also plays an important part in endoscope reprocessing to ensure Patient and Technician safety.

Key Features

- For easy & safe endoscope hanging.
- Universal compatibility.
- Special grade rust free strong material.
- Smooth surfaces for scratch free hanging of endoscope.

Model: OVM-24HD-A

Full HD Medical Grade Monitor

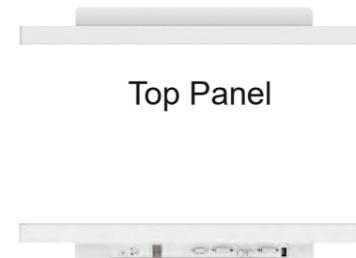

With precision color reproduction and smooth display for Ottomed Endoscopy Systems

Rear Panel

Side Panel

Top Panel

Bottom Panel

Key Features

1. Accurate Color Rendering

Mitra endoscopic operating room professional displays utilize 12BIT technology, which allows for over 68.7 billion colors to be shown linearly, thus accurately rendering the color of human tissue, enabling endoscopists to make more accurate judgements.

2. Excellent Layering

Mitra endoscopic operating room professional displays use medical LCD panels with the highest definition. The panels possess fine color, high brightness, and high contrast, thus clearly representing each layer of tissue in endoscopy in its proper order, providing clear images for detection and diagnosis.

3. Smooth and Dynamic Images

The response time of endoscopic operating room professional displays is less than 30ms, thus ensuring the smooth display of images from standard definition to high definition, as well as showing indications of hemorrhage and other important indicators during endoscopy, with remarkable clarity and without any ghosting or shaking.

4. Compliance with Operating Room Sterilization and Anti-interference Requirements

Mitra endoscopic operating room professional displays adopt a white, dust-free design, which complies with operating room sterilization requirements for electronic equipment. The metal-encased design can effectively prevent dust and fluid contamination during surgery. The metal casing body and the built-in shielding circuit can effectively prevent interference to the monitor from electronic surgical equipment ensuring the stability of the display.

5. Multiple Interface Types

Mitra endoscopic operating room professional displays have the compatibility for multiple analog and digital signals, and are perfectly compatible and suitable with and fully meeting the demands of Ottomed Endoscopy systems.

Specifications:

MODEL : OVM-24HD-A	
Backlight	LED
Size	23.8°
Active Display	527.04 (H) x 296.46 (V) mm
Resolution	1920x1080 (HD1080p)
Pixel Pitch	0.270 (H) x 0.270 (V) mm
Response Time	5ms
Brightness	400cdm ²
Contrast Ratio	1000:1
Colour Bit Depth (LUT)	68.7 billion colors (12bit)
View Angel	≥178°
LUT	GAMMA2.0,GAMMA2.2,DICOM
Video Input	DVI-I,VGA, CVBS,S-VIDEO,YPbPr,RGBS,SDI
Video Output	DVI-I, CVBS,S-VIDEO,YPbPr,RGBS,SDI
Optional	SDI
Power Output	DC5V1A (USB-A)
Power Requirements	100~240V, 50/60Hz
Max Power Consumption	96W
Typical Power Consumption	≤ 70W
Cabinet Color	WHITE
Dimensions	565.3x460.3x245mm
Dimensions (Without Stand)	565.3x375.3x65mm
Net Weight	6.5kg
Net Weight (Without Stand)	9kg
Hole Spacing	VESA : 100*100mm
Certifications	CCC,CE
Osd languages	English.

Adjustable Tray

Endoscope Hanging Bar

Endoscope Control Body Holding Tray

Endoscope Connector Holding Tray

Special handles for Safe and Easy movement

ENDO Trolley

Mobile trolley for Endoscopy Systems

EndoTrolley is a versatile endoscopy system trolley. The ergonomically designed trolley offers plenty of space for your entire endoscopy suite and makes it easily accessible for a smooth workflow during procedures. The sturdy wheels make it easy to move the trolley when required.

Features

- Ergonomic design.
- Vertically adjustable trays.
- Special handles for safe & easy movement.
- Secure hanger for endoscopes.
- Sturdy frame for Monitor placement.
- Compact & Portable

Specifications:

Dimensions	1430 mm (H) x 510 mm (D) x 440 mm (W)
Weight	40 kg
Maximum Load Capacity	Top tray: 15 kg
	Per shelf: 20 kg
	Base Panel: 30 kg

Castors:

100 mm diameter
2x braked conductive twin-wheeled castors
2x braked twin-wheeled castors
